

# A Color of His Own

Parrots are  
green

Goldfish are red

Elephants are gray

Pigs are pink.

All animals have a color of their own - Except for chameleons.

They change  
color wherever  
they go.

On lemons  
they are  
yellow.

And on the  
tiger  
they are striped  
like tigers.

One day a  
chameleon who  
was sitting on  
tiger's tail said to  
himself,

"If I remain on  
a leaf, I shall be  
green forever,  
and so I too will  
have a color of  
my own."

"With this thought he  
cheerfully climbed onto the  
greenest leaf.

But in autumn the leaf turned  
yellow- and so did the chameleon.

And then the  
winter winds  
blew the leaf  
from the  
branch and  
with it the  
chameleon.

The chameleon was black in  
the long winter night.

But when spring  
came, he walked  
out into the  
green grass. And  
there he met  
another  
chameleon.

He told his sad story. "Won't we ever have a color of our own?" he asked.

"I'm afraid not," said the other chameleon, who was older and wiser. "But," he added, "why don't we stay together?"

"We will still change color  
wherever we go, but you and I  
will always be alike."

And so they  
remained side  
by side. They  
were green  
together.

and yellow

And red with  
white polka dots.  
And they lived  
happily ever after.
